

COLD BOX

Together with Ita Fria, we have created the returnable cooler box, a unique and exclusive product, produced in Brazil, which meets the demand of companies that make deliveries or work with distribution centres and need to supply their own network. The partner company has a technology capable of keeping Pisani boxes cool for longer.

An economical solution that, as it is returnable, reduces environmental impact: the Cold Box has undergone tests that prove its effectiveness in maintaining the temperature of heat-sensitive products, in addition to meeting all the quality standards required by health authorities.

Testing at high temperatures has proven its use for the following products:

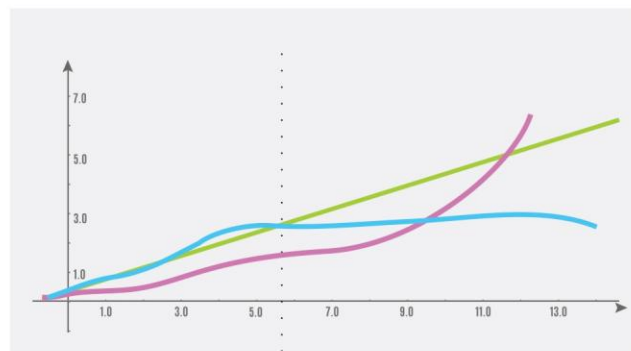

- ▶ **From 2 °C to 8 °C for up to 48 hours**
(with 2 units of CLIO GEL MOD 2000).
- ▶ **From 0 °C to -25 °C for up to 10 hours**
(with 2 units of CLIO COLD MOD 2000).

A successful partnership that provides our customers with the safety and quality they need to transport food and medicine.

PRODUCT FEATURES

- ▶ Used for transporting food and pharmaceutical products;
- ▶ Lid attached to the container;
- ▶ Modern design;
- ▶ Ergonomic handles;
- ▶ Resistant to impact, oil and temperature variations;
- ▶ Allows the recording of the company brand;
- ▶ Place for identification card;
- ▶ Ideal for reverse logistics;
- ▶ System that guarantees inviolability through seals;
- ▶ Easy to sanitize;
- ▶ A dedicated place to store reusable rigid ice.

Tests carried out in the laboratory and on a critical route ensure that the box keeps products from 2 °C to 8 °C for up to 48 hours, with just two units of CLIO GEL Mod 2000.

TECHNICAL INFORMATION

External dimensions: 600 x 400 x 365 mm

Internal dimensions: 548 x 365 x 340 mm

Approximate weight: 7 kg

Capacity without ice: 25 L

Capacity with ice: 15 L

Material: PP

Stacking: 330 mm
